

6th

INTERAMERICAN ONCOLOGY CONFERENCE

Current Status and Future of Anti-Cancer Targeted Therapies

October 8-9,
2015

Universidad Católica Argentina
Pabellón San José
Salón Juan Pablo II
Puerto Madero
Buenos Aires, Argentina

Chairs

Alex A. Adjei, M.D., Ph.D.
Roswell Park Cancer Institute
Buffalo, New York, USA

Román Pérez-Soler, M.D.
Albert Einstein College of Medicine
New York, USA

Josep Tabernero M.D., Ph.D.
Vall d'Hebron University Hospital
Barcelona, Spain

Faculty

Alex A. Adjei, Buffalo, NY, USA
Kenneth C. Anderson, Boston, USA
Carlos Arteaga, Nashville, TN, USA
Jorge Cortes, Houston, TX, USA
Hernán Cortés Funes, Madrid, Spain
Richard Finn, LA, California, USA
Román Pérez-Soler, New York, USA
Gabriel Rabinovich, B. A., Argentina
Antoni Ribas, LA, California, USA
Brian I. Rini, Cleveland, Ohio, USA
Josep Tabernero, Barcelona, Spain
Jeffrey S. Weber, Tampa, FL, USA
Anas Younes, New York, USA

Preliminary Program

New Anticancer Therapies
New Cell Cycle Inhibitors
Genomics
Immunotherapies
Breast Cancer
Genitourinary Cancer
Gastrointestinal Cancer
Lung Cancer
Hematological Malignancies

Under the Auspices of

Academia Nacional de Medicina
Asociación Médica Argentina
Chemotherapy Foundation, USA
CONICET
EORTC
Sociedad Argentina de Cancerología
Sociedad Argentina de Hematología
Sociedad Argentina de Urología
Sociedad Chilena de Cancerología
Sociedad de Medicina Interna de Buenos Aires
Sociedad Peruana de Oncología Médica
Sociedad Venezolana de Oncología

Declared of Scientific Interest
Facultad de Medicina, UBA

6th INTERAMERICAN
ONCOLOGY
CONFERENCE

Preliminary Program

New Anticancer Therapies

- Incorporating Genomics into Clinical Trials and Clinical Practice.
Alex A. Adjei, Buffalo, USA
- Development of New Cell Cycle Inhibitors.
Richard Finn, California, USA
- Immune Checkpoint Inhibitors (Anti-PD1 and Anti-PDL1).
Antoni Ribas, California, USA
- Clinical Perspectives on the Expanding Role of Immuno-Oncology.
Jeffrey S. Weber, Tampa, USA
- The impact of New Marine Compounds in Cancer Therapy.
Hernán Cortés Funes, Madrid, Spain
- Targeting the Galectin-glycan Axis in the Control of Immune and Vascular Signaling Programs.
Gabriel Rabinovich, Buenos Aires, Argentina

Women's Cancer

- Novel Combinations with PI3K/TOR Pathway Inhibitors.
Carlos L. Arteaga, Nashville, USA
- Current and Future Treatments in Breast Cancer.
Hernán Cortés Funes, Madrid, España

Gu and Gi Cancer

- Targeting the Androgen Axis in Metastatic Prostate Cancer.
Brian Rini, Cleveland, USA

- The Evolution of Targeted Therapy for Metastatic Renal Cell Carcinoma.
Brian Rini, Cleveland, USA

- New Therapies in the Treatment of Gastric Cancer.
Josep Tabernero, Barcelona, España

- Treatment for Advanced Colorectal Cancer.
Josep Tabernero, Barcelona, España

Lung Cancer

- Management of NSCLC with Known Activating Mutations.
Alex A. Adjei, New York, USA
- Management of NSCLC without Activating Mutations.
Román Pérez Soler, New York, USA
- Current and Future Management of ALK Rearranged NSCLC.
Román Pérez Soler, Bronx, USA

Hematological Malignancies

- New Developments in Lymphoma.
Jorge Cortés, Houston, USA
- Multiple Myeloma.
Kenneth C. Anderson, Boston, USA
- Novel Drug Development in Leukemia.
Anas Younes, New York, USA
